WOOLWORTHS DISTRIBUTION : DOCKS AND DOORS

Dear Dean / Doug

I would like to commend Stab-A-Load on a job well done at our new distribution facility at Midrand. The installation of the doors, dock-levellers, scissor lifts, dock bumpers and dock shelters were done in a professional way and your delivery to promised time lines is beyond reproach.

We have tested the Kelley AFX extensively the last couple of years, and I am happy to say the performance and low maintenance costs of these units have proved that we have made the right decision in installing these units at our new facility in Midrand. From an operational and environmental perspective, these dock-levellers are a vast improvement to previous models.

Thanks again for the great service.

Yours faithfully

JOHAN SHAW
Senior Manager : Supply Chain Development
