

# Car Lifts

We offer two ranges and three standard sizes of car lifts as well as customised solutions. The standard or custom build lift is further enhanced by our wide selection of doors, finishes and controls to deliver a best-in-class experience. See our brochure for available options. Our experts will work closely with you to help you choose the best system to fit your exact needs.

**LX series** - fully enclosed, Lift Directive 2014/33/EU compliant

**S series** - a range of man-riding semi-enclosed lifts, Machinery Directive 2006/42/EC compliant

| SERAPID<br>LIFT SYSTEMS          | Range of Car Lifts – Standard sizes and capacities |        |        |
