

SwingTech IMPACT DOOR

The Stab-A-Load Impact Door is a robust and high-performance industrial solution designed to meet the demanding requirements of facilities where durability, safety, and operational efficiency are key. Engineered for environments such as warehouses, loading docks, cold storage units, and manufacturing plants, this impact-resistant door excels in providing security and protection against extreme conditions.

STANDARD FRAMES OPTIONS.

NB* Please note that frames are not needed as door can be mounted directly to brick, concrete, tiles or steel structure. If the door schedule or spec requires one, the following options are available.

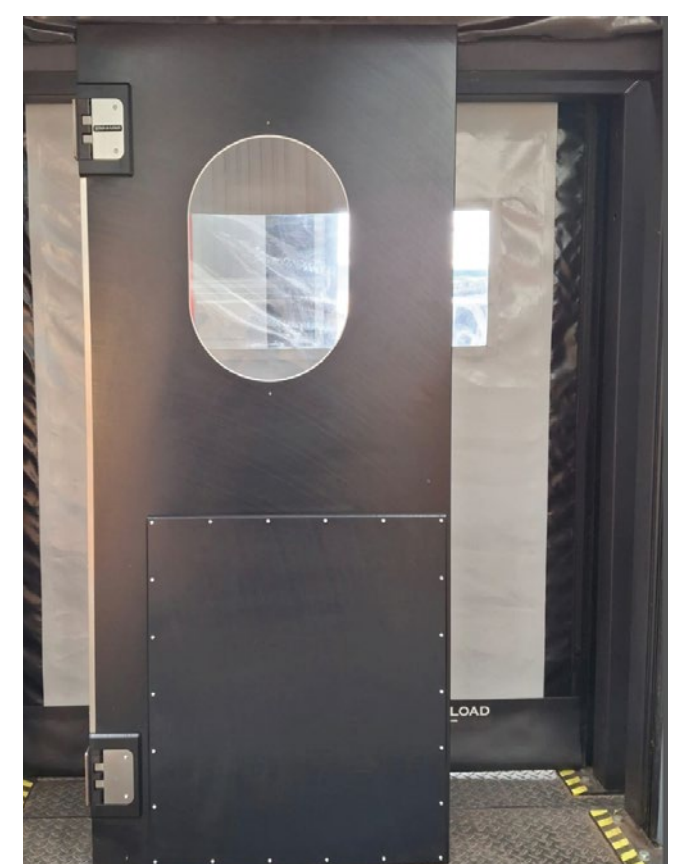

- ✓ Built -in frame (available in galvanised, powder coated and stainless steel).
-This is suitable for new and pre-planned openings and are to be installed by contractor or builder on site.
- ✓ Box-frame (available in galvanised and stainless steel)
-This is suitable for existing opening and is installed by with the technician when installing the door.
- ✓ Capping (available in galvanised and stainless steel).
-This is suitable for iso-panel and drywall finishing.
-NB* With drywall installation a steel frame no less than 100mm wide needs to be installed by the contractor or drywall specialist as the standard drywall studs are not strong enough to hold the impact door.
(e.g 15mm drywall board + 100mm steel section + 15mm drywall board = total wall thickness 130mm)

DOOR APPLICATIONS.

- ✓ Retail and supermarkets.
- ✓ Cold stores.
- ✓ Food industry (meat processing and bakeries)
- ✓ Industrial kitchens and canteens.
- ✓ Hotels and restaurants.

DOOR ACCESSORIES.

- ✓ SPRING/IMPACT/TEARDROP BUMPER MANUFACTURED FROM 5MM BLACK PRISMATIC POLYPROPYLENE.
AVAILABLE IN 300MM, 600MM AND 900MM.
- ✓ STAINLESS STEEL KICK PLATES (304 BRUSHED FINISHED).
AVAILABLE IN 300MM, 600MM AND 900MM.
- ✓ HDPE 500 BUMPER.
AVAILABLE IN 300MM, 600MM, 900MM.
